## GENERAL CHARACTERISTICS

Professional dishwashers designed to meet the needs for efficient and rapid cleaning of dishes and utensils in commercial settings, such as restaurants, hotels, and similar food facilities. Olis equipment is designed to handle a high volume of tableware and ensure high hygiene standards in commercial settings.

## TECHNICAL SPECIFICATIONS

■ **SMALL DIMENSIONS GREAT PERFORMANCE** The Compact series dishwashers are designed to meet the productivity requirements of small and medium-sized restaurants, combining small overall dimensions with high performance.

■ Rounded stainless steel tanks. ■ Vertical, self-cleaning washing pumps protected against electrical overload. ■ Double side drive system with built-in clutch that prevents derailment. ■ AISI 304 stainless steel boilers resistant to chemical aggression, insulated to reduce heat loss. ■ Simple and intuitive touch screen control panel,

low voltage, IP65 protection rating, built with membrane keypad for easy cleaning. ■ Stainless steel tank protection filters, easily removed without disassembling the washing arms, to keep the wash water free of heavy dirt and food residues. ■ Insulated, counterbalanced double-walled door with fall protection system. ■ Autotimer that deactivates the drive motor and any electrical options after a pre-set period of inactivity, allowing consumption to be kept low. ■ Washing and rinsing economisers. They are only activated in the presence of baskets in the dedicated area, avoiding unnecessary water waste.
